MOVING RAIL

Das Schienensystem Moving Rail dient der Befestigung des mobilen Moving Panel und Moving Acoustic Panel an der Wand und ist aus magnetischen Aluminiumprofilen gefertigt. Die beschreibbaren Präsentationstafeln in beiden Größen sowie das Akustikpanel können mittels des Moving Rail großflächig und temporär an die Wand angebracht und kombiniert werden. Das Moving Rail ist jeweils in drei Längen erhältlich.

The rail system of magnetic aluminium profiles, Moving Rail allows for the attachment of the mobile Moving Panel and Moving Acoustic Panel to the wall. With the help of the Moving Rail, the writeable presentation surfaces in both sizes as well as the acoustic panel can be used and combined on a large-scale and temporarily on the wall. The Moving Rail is available in three sizes respectively.
