

## MOVING STOOL

The Moving Stool is the perfect addition for a modular and multifunctional space concept. Made from recyclable formfleece, the surprisingly stable and lightweight stool has a generously proportioned and comfortable seat moulded into the top. The conical shape allows a practical stacking, thus making it another useful mobile working tool in an agile environment. Turned upside down, the stool also doubles as a practical container. The handhold cutout on the side of the stool allows for easy pick up and portability. Dimensioned to fit into the storage space in between the two sides of the Moving Wall, the Moving Stool comes in a stone grey or anthracite colour.
