

MOVING PANEL M

PANEL M

The magnetic, writeable Moving Panel is a versatile and helpful tool in agile work environments.

The wafer-thin, frameless panel can effortlessly be attached to the much larger Moving Wall. Alternatively, the lightweight Moving Panel can be used as a stand-alone writeable presentation surface and fixed to the wall by means of a rail-system.

It is perfectly suited to the requirements of highly flexible working environments and methods. The mobile panel has the same high-end surface as the Moving Wall.

DESIGNER	Jörg Boner
MADE	In Switzerland
DESCRIPTION	Mobile, magnetic writeable panel
MATERIAL	Powder coated sheet steel
DIMENSIONS	H 1000 x W 680 x D 10mm
WEIGHT	4.50 kg
COLOUR	White

MW WALL RAILS

The rail system MW Wall Rail enables the Moving Panel M to be connected to the wall.

The aluminium rails for wall mounting are available in three different lengths.

How To Use - Variations

MW WALL RAILS Variations for wall mounting the MOVING PANEL M:

- 1 Panel M = 1x Wall Rail M1 (L 580mm)
- 2 Panels M = 1x Wall Rail M2 (L 1260mm)
- 3 Panels M = 1x Wall Rail M3 (L 1940mm)

Please note:
The Wall Rails M1 to M3 always comprise a set of three rails.

M1 Moving Rail

M2 Moving Rail

M3 Moving Rail
